

MC EASY FREIGHT[®]

At the center of your business

Over the years, MC Easy Freight has established and developed a consistent network of qualified agents throughout the planet, thus fully integrating your supply chain for inbound or outbound cargo.

We have selected reliable partners who care for your freight as much as we do. Backed by sound technical expertise, monitoring the seamless flow of all your goods remains their utmost daily priority. By leveraging this extensive global network, we can deliver or pick-up your cargo anywhere in the world and at your convenience.

Our customers

MC Easy Freight fosters prime client service and prioritises advice to its clientele to find the best cost-effective solutions. We have nurtured a close and pro-active relationship with our clients over the years. Our clients range from the top 100 companies of Mauritius to small and medium enterprises, as well as individuals shipping their household goods worldwide.

WHO WE ARE?

Management tandem

MC Easy Freight is managed by a duo of two highly committed and passionate freight experts, Mr Clarel Michaud and Mr Marino Martin, both with a proven track record in the international freight industry. Their common vision is emphasised by efficient management strategies, quick decision-making abilities, open-mindedness and innovation skilfulness, to keep nurturing the level of customer service satisfaction.

Local and international recognition

MC Easy Freight is licensed as freight forwarder by the Mauritius Revenue Authority Customs Department. The company is an active member of the prestigious FIATA (International Federation of Freight Forwarders Association), which groups approximately 40,000 forwarding and logistics firms, spread in some 150 countries.

OUR SCOPE OF ACTIVITIES

Sea freight facilities and cargo consolidation

MC Easy Freight agents strive to meet importers' and exporters' accurate requests at best. As a result, our customers feel relieved from all the burdensome aspects of the operational cargo, ranging from hectic inland transportation to warehousing and customs clearance, containers loading and unloading stress.

MC Easy Freight is specialised in managing the movement of any type of oversized cargo, irrespective of its weight or dimensions anywhere in the world. We can handle the most challenging jobs. We make necessary arrangements to consolidate cargo from different ports of origin to several international destinations. This process brings about remarkable economies of scale and savings on transportation costs to our customers, thereby billed exclusively as per the volume used in a container.

With MC Easy Freight enjoy the benefits of highly competitive freight rates, reduced packing costs and shorter waiting periods.

Air freight services and multimodal/combined transport

Given the quick development of global markets, coupled with increasingly tight delivery schedules worldwide, MC Easy Freight ensures the smooth and swift handling of customers' goods and products throughout the globe.

We commit to collect your freight on your doorstep, pack it and monitor its transportation and delivery efficiently all along the line, to meet your sharp time requirements.

We also offer combined transport facilities. For example, we move your cargo by sea-air or air-sea, according to your specific needs.

Inland fleet

MC Easy Freight is fully aware of timelines and punctuality in the business environment. Our range of container trucks and general freight vehicles provides customised inland transportation solutions for regular and rushed shipments.

Customs brokerage

We proudly rely on our expert team of qualified customs brokers who master the ins and outs of customs procedures, duty and tax assessments, and proper classification of goods.

Our customs clearance team ensures that the appropriate freight documentation is prepared well in advance for all imports and exports, to avoid unnecessary costly and time-consuming delays. Such facility contributes to the fast clearance of consignment.

Warehousing and freeport

MC Easy Freight offers integrated services in the freeport, including labelling, packing and repacking, bulk breaking, assortment, etc. Our warehouses are secured, thanks to a 24-hour video-surveillance service.

Likewise, our inventory control system is fitted with a modern barcoding system of all items received and issued, to enable your stock management in real time.

We dispatch your products to a single or to multiple destinations, as per your requirements.

Security and control

MC Easy Freight understands the significance of security and control of freight for its clients. This is why we closely monitor your cargo until it reaches its destination. Our systems enable you to track shipments and view documents via the internet. Moreover, our agents remain in direct contact with our vehicle drivers throughout their inland journeys.
